

*Thank you for your kind words....
We shall continue to organize events and activities useful for the
sustainable development of our Profession....*

Words from participants regarding the Study Trip to the Pearl River Delta for Young Accountants held on 25-26 Jul 2009:

" The trip is well structured and educational and can enable us to exchange with our PRC counterparts. I would certainly recommend to other friends in the profession. "

" Thank you very much for organizing the trip. It's very fruitful for us. Hoping that there will be more events in the future! "

" Keep up the good work! I really appreciate your efforts! "

" 多謝會計資源中心和華人會計師公會舉辦今次的交流團，使我可以得悉廣東省和江門的會計資訊，在國內從事會計的要求和資格，而陳茂波議員亦從香港會計制度作出回應和解釋，使我對香港的某些會計制度和實地審查有深入了解，同時亦可以和一群有理想、熱心的年青大學生共渡兩天的旅程，作為較年長的團員亦把一些工作技巧傳授給他們，希望能幫助他們日後的發展，我的同學也覺得有這群生力軍，香港的會計界有希望了，多謝各位工作人員，使我們有愉快的旅程。 "

" I treasure the opportunity to meet the mainland officers and accountants very much. It broadens my scope and widen my network with the precious experience. I have more confidence in dealing with the mainland affairs. Though sight-seeing is not the main purpose of the trip, it really makes the trip full of fun. It helps everyone to communicate in an easier way. I believe without this part, the trip would not be so successful. Thank you all who had taken part in initiating and arranging the trip. I look forward to joining you again. "

" Exceeded expectation in terms of people met, fun and arrangements. "

" I think the study trip to the Pearl-River-Delta was successfully held between 25-26/7/2009. During these 2 days, I made new friends and shared own life experience with representatives from PRC government bureaus. All participants were friendly and helpful. I have learned many practical skills which are very useful in my career. It also broadens my horizon. "

" This study trip gives a good opportunity for people whose career goal is being a professional accountant who wants to broaden their horizon for the China accounting industry. They can have an understanding on the cultural difference between the accounting practice in Hong Kong and China. This can improve both their practical and social skills in dealing with Mainland customers. Look forward to more similar study trips in different China provinces in future. "

" It opens my eyes through the site visit and meeting with government officers. It is an excellent situation to meet young generation that I can share my working experience and how the real world are dealing with accountants in the commercial field and auditors. Please organize more trip including the first class cities, Beijing and Shanghai and second class cities in central China, Chongqing and Chengdu. Thank you for organizing the trip and event. Thank you! "

" This is a very well arranged and enriching trip which broadens our view about the development in China, especially the development of the accounting profession in PRC. "

" Enjoyable and invaluable experience! Oceans of thanks for your kindest arrangement! "

" Can get the valuable experience during the study trip. Thank you everyone who are supporting the trip! "

" It is a valuable trip for both accountants and students. Thanks for your excellent arrangement! "
